The enrollment password is the password your students will use to enroll in your class. Pick a password that is easy for your students to remember and that contains all lowercase letters.

The end date is the date your class expires. When a class expires students can no longer submit papers or enroll in the class. The default duration for all classes is 6 months. If you want your class to last longer or shorter, you can change the end date.

If you want to let students enrolled in your class view their own Originality Reports, select *yes* using the pulldown. By default, students do not have access to their own reports.

Click *submit* to add the class to your homepage.
Step 3

The class will now appear in your class list beneath your account. The number to the left of your class name is the **class ID**. Students will use this ID along with the **class enrollment password** to enroll in your class. You can view your class enrollment password at any time by clicking the *update* button next to your class.

You should distribute your **class ID** and **enrollment password** to your students so that they can enroll in your class and submit their papers. Be sure to include this link to our student quickstart:

With this information, your students will have everything they need to get started with Turnitin.

Click on the name of your class to open your class homepage.
